

Modbus gateway

4801

- Modbus RTU to Ethernet Modbus TCP/IP gateway
- PPS app communication gateway

Application

- Modbus RTU to Ethernet Modbus TCP/IP gateway.
- PPS app communication gateway.
- Includes 200 mm RJ45 to SUB-D9 cable.

Technical characteristics

- Supply voltage: 12...48 VDC - 4.5 W - 340 mA (max.)
- Operating temperature: -10...+60°C
- LAN1, RJ45: PPS "device s/n".pps.preelectronics.comIP: Dynamic
- LAN2, RJ45: Modbus TCP/IP - IP: 169.254.0.10Subnet mask: 255.255.0.0
- Port 1 and 2, DB9 male: Modbus RTU over RS-485(default baudrate: 57.6k bps)
